

PRIVILEGE 2020

The PRIVILEGE 2020 collection from LAFUMA Mobilier, an invitation to discover our way of living in the Drôme region, right in the heart of France: take a seat and share a good glass with a fine view over the Vercors !

Our Ancône armchairs, with unmatched comfort, are perfect around a table, and have a generous size and clean lines. Opale or Gordes... be seduced by them!

You can choose your decor mood from our wide range of accessories with well-thought out finishes: outdoor rugs, trays, cushions etc. Go ahead and have fun with the colours and materials!

The table is ready. Sit down with your friends to share a moment together!

French design and manufacturing since 1954, our brand continues to innovate while remaining faithful to its own style, combining Bauhaus-inspired lines with textiles which feature French chic prominently.

Arnaud du Mesnil
Managing Director

A handwritten signature in black ink, appearing to read 'Arnaud du Mesnil', with a stylized flourish at the end.

OPALE, a story inspired by the cool breeze and soft light of a summer evening. Escape to far lands, or wild landscapes where the contrast of colours is as striking as it is captivating.

With its warm summer tones, this new collection will take you on a journey of a thousand possibilities. The white Kaolin tubing emphasises the silhouette of products covered with mineral-inspired fabrics: Argile, Ocre and Céladon.

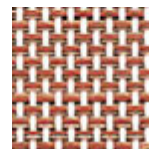

The specific weave brings a great aesthetic richness to these latter fabrics, and enhances their comfort.

Argile

Céladon

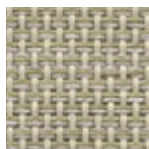

Ocre

GORDES, a story which finds its roots in the south of France, deep in the Luberon area, known for its beautiful villages.

Let yourself be carried away by the delectable French art of living, an invitation to slow the pace of your everyday life. Latte, Onyx and Jade, will captivate you with their naturally muted colours, both calming and conducive to relaxation, inspired by the shades of rocks and rivers...

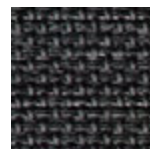

As the common thread of this story, the Titane frame will seduce you with its style, at once timeless and modern, while also resolutely contemporary.

TECHNOLOGIES

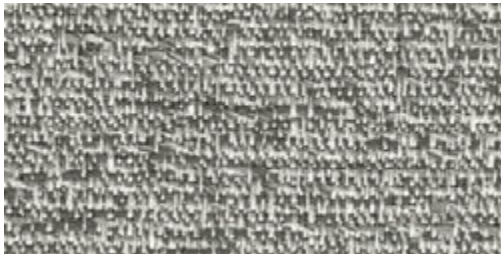

Seat canvas and cushions

New TUNDRA, where style meets comfort!

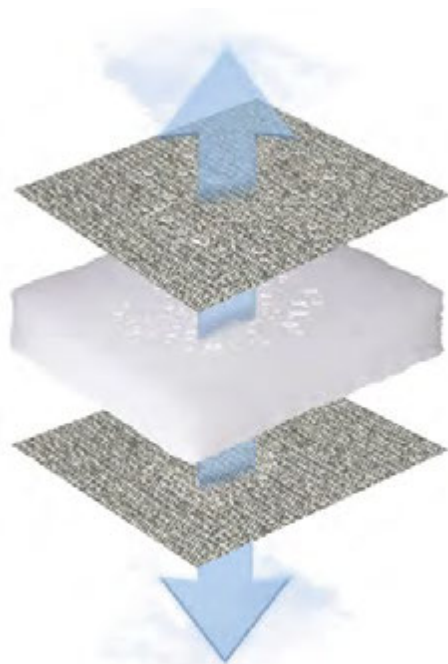

Discover this ultra-trendy super soft texture, with ready-made accents.

A soft padded technical fabric, designed for indoor/outdoor use, offering good resistance to the weather and everyday wear and tear. Resistant to sunlight, water-repellent, and easy to clean (with soapy water). All its technical qualities make this textile the ideal partner for your leisure.

 sunbrella®

Tundra Grey **NEW**

Sunbrella® canvas

Breathable and permeable
polyester padding

Sunbrella® canvas

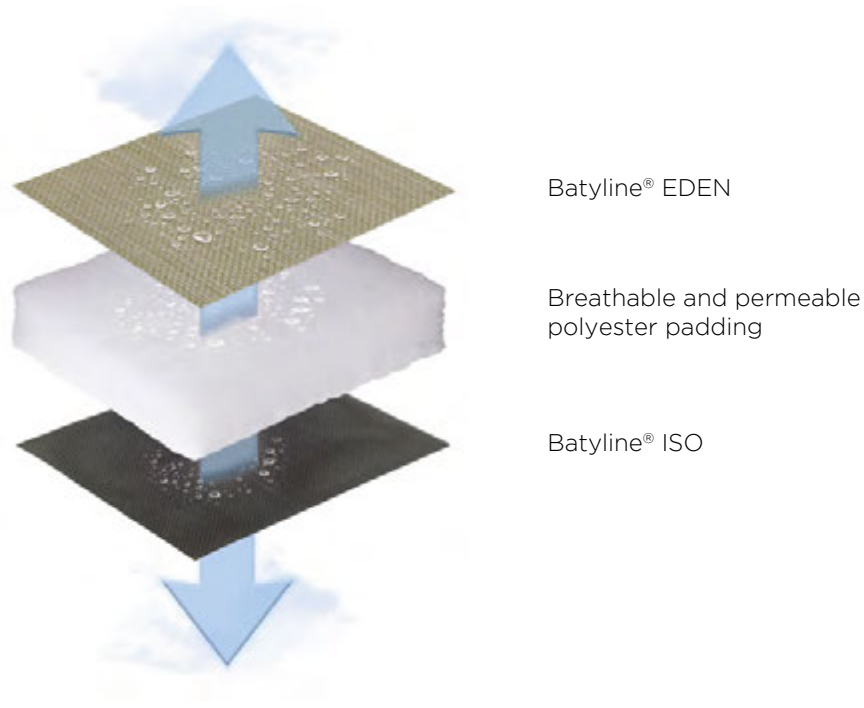

Seat canvas and cushions

Hedona, the perfect combination of technicality, comfort and style.

The result of a long research study into seating comfort and new products for indoor/outdoor use, the technical «3 layer» Hedona cushion offers unsurpassed comfort, while enabling the design of products with refined lines and a definite modern look.

The decorative part, made from Eden, combines the technical qualities of Batyline® with comfort, the feel of the fabric and style in an original way.

Hedona is easy to maintain, does not retain water, is breathable, dries quickly and is not affected by the sun. It is easy to keep clean with a little soapy water.

BATYLINE® Serge Ferrari

Batyline® fabric allows the creation of products which are particularly suited for use around the poolside, thanks to good resistance to UV exposure, an anti-fungal treatment and open weave which does not retain water.

Batyline® fabrics have great resistance to tearing, they keep their shape and are easy to maintain. They are also environmentally-friendly as they have an eco-design and are 100% recyclable.

Frames and tabletops

Frame made from HEL (High Elastic Limit) steel.

HEL steel is characterised by its excellent functional properties and high level of mechanical resistance. This steel is therefore durable against fatigue and resistant to knocks.

Paint - far more than a simple colour...

The original look of our finishes makes it a material in its own right, with a deep richness and refined surface. Our steel frames are painted with 100% polyester powder-coated lacquers. They are notable for their excellent resistance to UV rays.

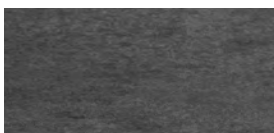

More than 15 years ago the paint facility converted to powders - cleaner for employees and customers, and offering more durability for products.

HPL tabletops

HPL (High Pressure Laminate) is a compact laminate material comprising different resin layers. Its properties offer numerous advantages for our tables: resistance to scratching and knocks, chemicals, bad weather, heat (up to 180°C) and UV rays (colourfastness).

It is a durable, hygienic product that is easy to maintain. A little soapy water is all that is needed to clean stains; scouring creams and furniture cleaners or polishes are to be avoided.

OUR BRAND

LAFUMA MOBILIER, a concentrate of French savoir-faire.

LAFUMA MOBILIER designs, develops and manufactures outdoor furniture to accompany our consumers in their happy moments, both at home and in the great outdoors.

Style, comfort and durability are the basic principles of the brand's creations. Using its unique savoir-faire and keen sense for innovation, LAFUMA MOBILIER improves its collections of practical, ergonomic and aesthetic designs year after year.

The result: LAFUMA furniture is always popular and stands the test of time, with models such as the famous Relax and Pop-Up.

A market leader in outdoor goods, LAFUMA MOBILIER has always been conscious of its role in social and environmental awareness. Since its creation on 1954, LAFUMA MOBILIER has combined its different individual skills in an exemplary eco-friendly approach, relying on its teams' knowledge (product design, manufacturing and sourcing, transport and logistics, human resources, sales and communication).

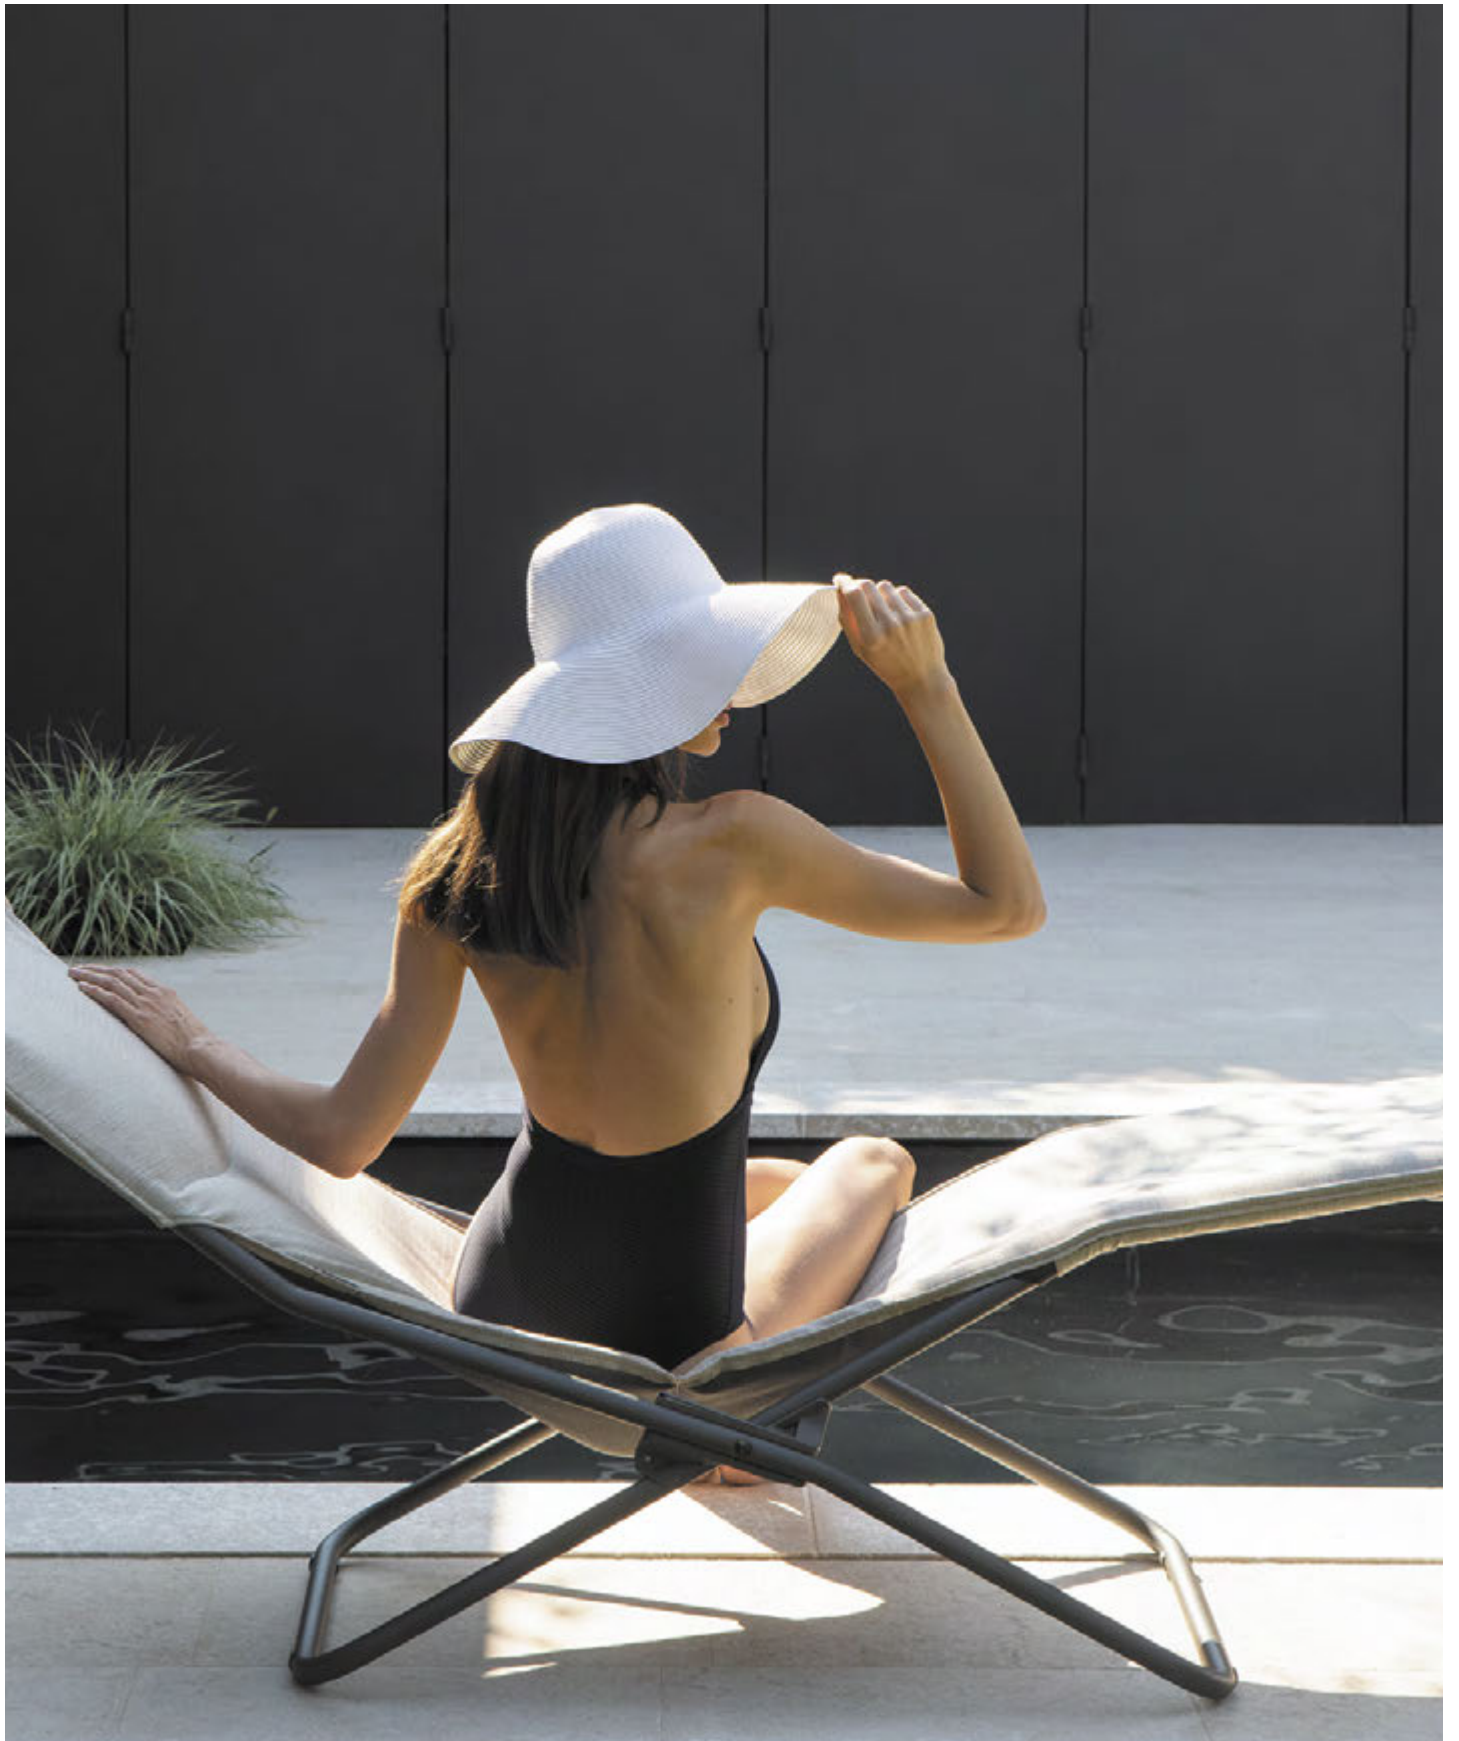

More than just a single undertaking, sustainable development lies at the very core of LAFUMA MOBILIER.

International acclaim has not meant that Lafuma Mobilier has forgotten its origins. Lafuma brand furniture has been manufactured in Anneyron (in the Drôme region), a historic site, for more than 60 years, essentially by local businesses: More than 600,000 items are made there each year and many patented innovations were created there.

Because LAFUMA MOBILIER gambled on succeeding, based on quality at every level, the brand found itself awarded the Origine France Garantie label (Guaranteed Made in France), to recognise its industrial commitment and as a measure of the quality of its products.

The label certifying a guaranteed made in France product.
